

Safety and water control has never been easier.

Introducing: CliniMix® Lead Safe™ CMV2

Our latest handsfree point of use (POU) Thermostatic Mixer is a high-performance valve designed to deliver safe water temperatures for handwashing. Manufactured to the highest standards, the CliniMix® Lead Safe™ CMV2 has AS 4032.4 approval and is compliant with modern healthcare requirements.

The inclusion of our temperature monitoring system provides extremely accurate 24/7 monitoring of water flow and temperature with high speed wireless communications managed through a personalised cloud-based dashboard.

Benefits

Some of the key benefits why you should choose the CliniMix® Lead Safe™ CMV2.

- ✓ Thermal disinfection without removing front faceplate.
- ✓ Thermostatically controlled water temperature and scald protection.
- ✓ Unique hygiene flush feature for in-situ disinfection.
- ✓ Lead Safe™ materials.
- ✓ Environmentally sustainable solution.

Options

We recognise each environment is unique. That's why we've designed the CMV2 with various options to suit your needs.

Colour - chrome or coloured glass face plates.

Activation - wave on/off or proximity sensor activation.

Temperature Monitoring - integrate our innovative TMV Monitoring System.

Bluetooth - integrate our Bluetooth system.

Compatible with CliniMix® Temperature Monitoring and Compliance System

Assisting Engineers to meet compliance obligations, the CliniMix® TMV Monitoring and Compliance System will provide a high level insight into product and plumbing system performance when paired with the CliniMix® Lead Safe™ CMV2 range of products.

- Wireless system delivery
- 24/7 monitoring
- BacNet compatible
- Cloud-based communications and data storage

Risk Management Tool

CliniMix® Lead Safe™ CMV2 includes features for scald protection and infection control, making it ideal for use in Hospitals, Schools, Food Preparation and Washrooms.

- AS 4032.4 compliant Point of Use tapware
- Assists with management of plumbing system and control of bacteria growth
- AHFG Type A and B healthcare basin compatibility, including leading brands of sanitaryware

NCC 2022 Lead Compliant

CliniMix® Lead Safe™ CMV2 complies with the NCC 2022 new lead free plumbing product requirements, which require plumbing products intended for use in contact with drinking water to have a weighted average lead content of $\leq 0.25\%$ giving you total peace of mind.
