situation: Redevelopment of an existing 6 bedroom house and addition of a student residence for the Australian Ballet School. **solution:** Where contemporary and Victorian styles can co-exist, the student residence is a subtle new addition paying careful respect to the grandeur of the existing heritage building. The interior breathes freshness with vibrant colourful splashes while the Atkar acoustic panels deliver a perfect ambience throughout the residence. MGS Architects chose the matte silver Au.dilimage to create the complex ceiling bulkheads expressing streamlined forms like that of a ballerina. Atkar worked closely with the builder and plasterer onsite, providing detailed shop drawings and successfully completing the sophisticated design; befitting of a prestigious Ballet School with a rich history.
