URBANE II

Created with *flexibility* in mind...

Our Caroma Urbane II collection sets a new benchmark in contemporary Australian design. Combining refined thin-edge details and a considered design language this extensive bathroom collection includes tapware, showers, accessories, basins, baths and toilets.

Available in a beautiful and highly durable palette of 5 colour finishes, the collection can be tailored to suit a range of styles and tastes, making it our most customisable Caroma collection yet.

The collection features Caroma Easy-Switch, the universal in-wall body system that gives you ultimate flexibility.

The in-wall mixers have unique flexibility in that the trim kit, colour finish and design can all be interchanged pre or post installation – eliminating costly hold ups as well as allowing you to quickly and easily update the design, colour and style without costly rectification work. Trim kits are available in 5 colour finishes with 2 wall flange options - rectangular and round.

Caroma EasySwitch is the universal in-wall body system that fits every Urbane II and Liano II tapware product to give you the ultimate flexibility when choosing your bathroom fittings.
