

MTD2

MCD5

thermostats

The MICROTEMP RANGE of electronic thermostats is specifically designed for electric underfloor heating systems. The thermostats are flush mounted and have a 2pole isolator with 16A output relay.

MTD2 - Standard Thermostat -

Adjustable control with air/floor sensor. Allows you to maintain a constant temperature. On/Off switch

MCD5 - Touch Screen Digital Thermostat

Enjoy easy colour touch screen navigation. Digital 7day / 4 event programmable thermostat, also including built in holiday calendar. Allows you to programme on/off times and temperature, with a range of setback functions. Includes floor sensing technology
Standard colour: White

ETN4

Home Automation Thermostat - ETN4

Home Automation compatible with setback functions. Installed in a central switchboard.

TECHNICAL DATA - MTD2/MCD5

| | |
|-------------------------|------------------------|
| Supply Voltage: | 240Vac, 50/60hz |
| Output Relay: | 16A SPST, 3600W max |
| Switching Differential: | 0.4 degC |
| Built-in Switch: | 2 pole 16A |
| Temperature Range: | 0/+50 degC |
| Housing/protection: | IP20 & IP21 |
| Dimensions (HxWxD): | 115mm x 84mm x 58mm |
| Mounted: | Vertical or Horizontal |
| Sensor Length: | 3m |
| Warranty: | 2 years |

FLOOR SENSOR

All Comfort Heat thermostats include a floor sensor maintaining consistent floor temperature. Floor sensing thermostats are the safest and most energy efficient ensuring the floor is not overheated, but kept at the desired temperature.
