Timber Finishes

Kennedy's offer a comprehensive range of timber finishes providing a perfectly tailored look to your residential or commercial project.

hand brushed

Kennedy's unique brushing technique enhances the timber's individual patina and natural characteristics.

The finished smooth surface exposes the timber's history and can be left to age naturally or have an oil coat applied.

Hand Brushed is our most popular and enduring finish.

resawn

This finish is produced when large timber is sawn resulting in square or rectangular cross sections.

Sizes range from standard posts and beams, primarily featured in domestic construction, through to specially requested sizes required for architectural purposes and commercial developments.

grey & weathered

Grey and Weathered is the finish of choice when harmony with the surrounding environment is paramount.

The result is the product of an inherent silver grey patina stemming from the natural ageing process. This finish provides an eco friendly, low maintenance solution resulting in a stunning look.

rustic

The Rustic finish offers a natural look with an abundance of character. All nail and bolt holes, natural scarring and other evidence of the timber's history are left to reveal a distinctive and rustic appearance.

With no two pieces the same this finish offers a natural, warm, rich and honest look to your timber.

dressed

When precise sizing and a clean look is required, this is the optimal finish.

This timber is profiled to tolerances according to Australian Standards AS 2796.1 producing a timber finish that is smooth to touch requiring little or no sanding.

All Kennedy's finishes can be pre oiled in our factory prior to delivery with either of our recommended coatings; Cutex or Cabots Bar D K.
