FEATURES 38

BESPOKE 40

A photograph of a modern outdoor courtyard. The foreground is a paved area with light-colored, rectangular paving stones. In the center, a large, spiky tree is planted in a raised, rectangular concrete planter. To the left, there is a lawn area with several dark, leafy plants in a raised bed. In the background, a fence with vertical wooden slats and a white wall is visible. The sky is bright, and there are trees with yellow and orange foliage in the distance. The word "PAVING" is overlaid in large, white, sans-serif capital letters across the center of the image.

PAVING

Sleek lines guide the design of this stylish Caulfield residence, which balances hard surfaces with soft plantings.

Design: C.O.S Design

Contractor: Esjay Landscapes

Deliverables: Various paving sizes in Devon

Photography: Tim Turner

Australia's finest paving products, hand-crafted in Melbourne using the best quality materials.

Anston's 25-colour palette is divided into four distinct ranges:

Granite, Traditional, Ironstone and **Pebble**.

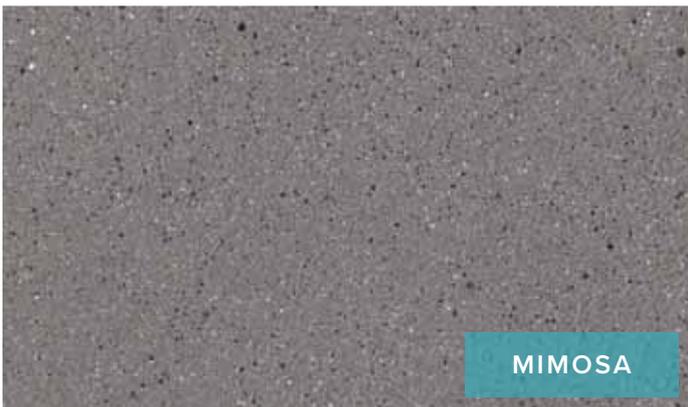

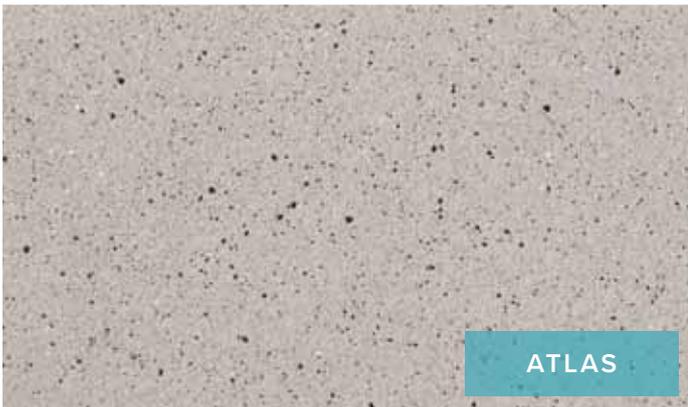

All 25 colours are available across the entire suite of Anston products.

Over 150 sizes are available in our stock selection. Custom paver sizes, colours and finishes are also available upon request.

All pavers are made to order. Please allow a lead time of 4-5 weeks for standard products and 7-8 weeks for custom products.

Granite Range

Granite is known for its metallic sparkle, created by reflective chips of Australian black granite.

Traditional Range

Traditional pavers are classic and timeless, displaying a wholesome, natural beauty.

Ironstone Range

Ironstone makes a bold statement, characterised by large chunks of exposed local stone aggregates that add variety and intrigue.

Pebble Range

There's more to the Pebble range than meets the eye, as multiple flecks of stone and quartz peek subtly through the surface.

Commercial Paving

WAYMOUTH STREET, SA

The City of Adelaide decided on the sturdy durability and sparkling dark tones of Anston Mimoso to refurbish this popular streetscape in the heart of the city.

Design: City of Adelaide
Construction: Kent Civil, Space Landscape Construction
Deliverables: Mimoso paving
Photography: Sam Roberts

MEDINDIE RESIDENCE, SA

Formal and contemporary landscape elements complement this beautiful heritage home.

Architecture: Proske Architects
Landscape Design: Nathan Burkett Design
Landscape Construction: Distinctive Gardens Landscaping
Pool Construction: Elite Pools Design & Construct
Deliverables: Remi herringbone paving and pool coping
Photography: Sam Noonan

Pedestal Paving

ST JOHN OF GOD HOSPITAL

The absence of grout draws more attention to the tri-coloured paving installed extensively throughout the hospital's landscaped courtyards and balcony areas.

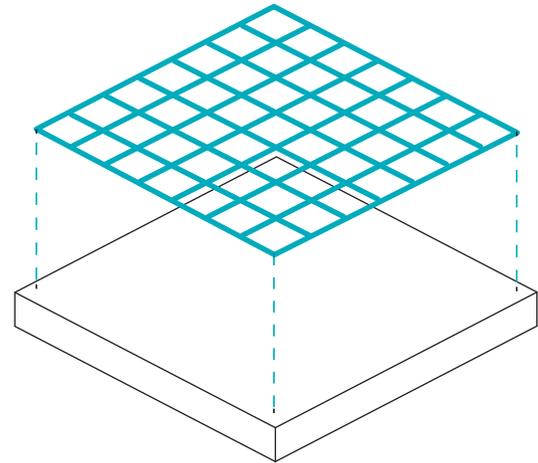

Design & Construction: Hansen Yuncken
Deliverables: Vega, Atlas & Mimosa pedestal paving
Photography: Impress Photography

Pedestal Paving

Laying paving on pedestals is a popular installation technique that brings a range of attractive benefits.

However, failure of pedestal pavers due to heavy impact loads can put pedestrians at a higher risk of injury from falling, compared to a standard paving installation on a solid base.

Anston's pedestal paving range has been carefully engineered to resolve this issue. A sturdy steel mesh is embedded within the body of the paver, ensuring that any fractures in the paver do not affect its structural integrity.

POOL COPING

Concrete steps lead to an inviting pool oasis, surrounded by dropdown pool coping in the same style and colour.

Design & Construction: Secret Gardens of Sydney

Deliverables: Vega paving, dropdown pool coping and dropdown step coping.

Photography: Nicholas Watt

Anston's engineered pool coping solutions are the designer's choice for traditional and modern pools.

Coping Profiles

SQUARE EDGE

BULLNOSE

DROPDOWN

BLASTED

All coping units are made with a blasted finish. We do not apply honed finishes to pool coping as honed surfaces can be very slippery when wet.

In addition to our extensive selection of standard sizes, we can create **bespoke** curved or straight coping pieces to suit renovations of existing pools or creation of entirely new designs.

Our versatile coping formats can double as step treads for both internal and external applications, as well as wall capping, garden edging or plinths.

All coping units are made to order. Please allow a lead time of 4-5 weeks for standard products and 7-8 weeks for custom products.

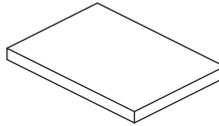

Coping Sizes

Note:

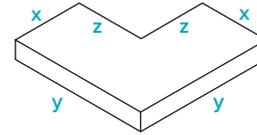

The finished edge is typically on the longest edge of each coping unit.

This applies to all three coping profiles.

Contractor: Distinctive Gardens
Deliverables: Remi paving and pool coping

SPASA POOL EXPO 2018

The Outdoor Design Junction feature garden stole the show at the 2018 Pool Expo, featuring a beautiful waterfall pool at its centre.

Design: Justine Carille Landscape Design
Contractor: Coolabah Landscapes
Deliverables: White Vega pool coping, Mirrosa Steppers
Photography: Patrick Redmond

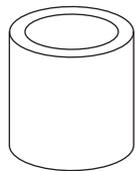

PLANTERS

Anston planters bring greenery into the home, utilising a delightful blend of soft and hard materials.

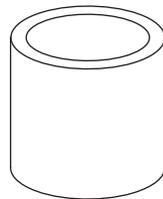

Circular Planters

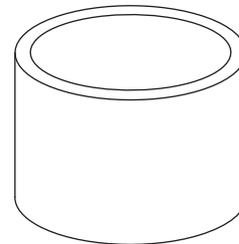

Circular planters have an internal wall taper, starting with a 70mm thickness at the top that widens to a 100mm wall thickness at the base.

Rectilinear Planters

Anston's large-format rectilinear planters are dual in functionality. Not only do they provide a strong, durable container for housing a garden bed, they are also immovable physical barriers due to their weight, particularly when filled with soil.

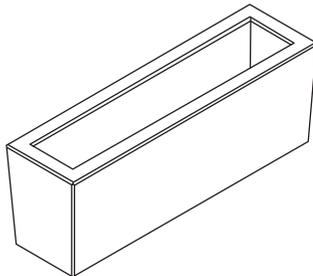

Rectilinear planters are commonly used in place of vehicular bollards as a means of pedestrian safety.

Deliverables: Ivory planters, Mimosa spheres, Alloy paving planks and Alloy bench modules

FURNITURE

Shadow Play, a luxury residential tower in South Melbourne, is furnished with sweeping concrete benches at its rooftop bar.

Design: BPM

Contractor: Icon Constructions

Deliverables: Custom curved concrete bench modules

Photography: Impress Photography

The placement of outdoor furniture enriches the relationship between user and landscape.

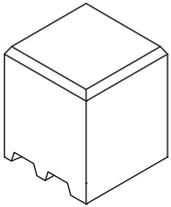

Anston's furniture range is available in all 25 Anston colours and a standard blasted finish. Custom colours and mixes, and a honed or polished finish, are also available upon request.

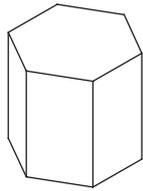

Outside our standard range, Anston offers **fully customised** pieces tailored to unique project requirements. Our in-house fabrication and engineering expertise allows us to assist clients throughout the fulfilment process. We like to begin the conversation as early as product specification, seeing each project right through to its final outcome.

Individual Seats

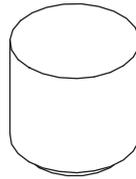

Apart from the standard selections available below, we also accept orders for custom seat prototypes.

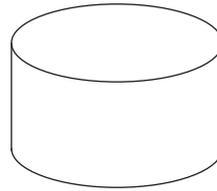

L 500
W 500
H 600

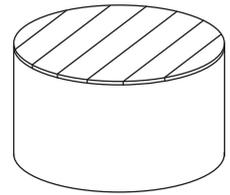

L 480
W 416

This contemporary bench was constructed using standard Anston bench tops and bench legs.
 Design: Avantgardener Landscape Design
 Construction: Exclusive Landscape Construction
 Deliverables: Vega bench components and paving
 Photography: Jackie McWilliam

BOX HILL GARDENS

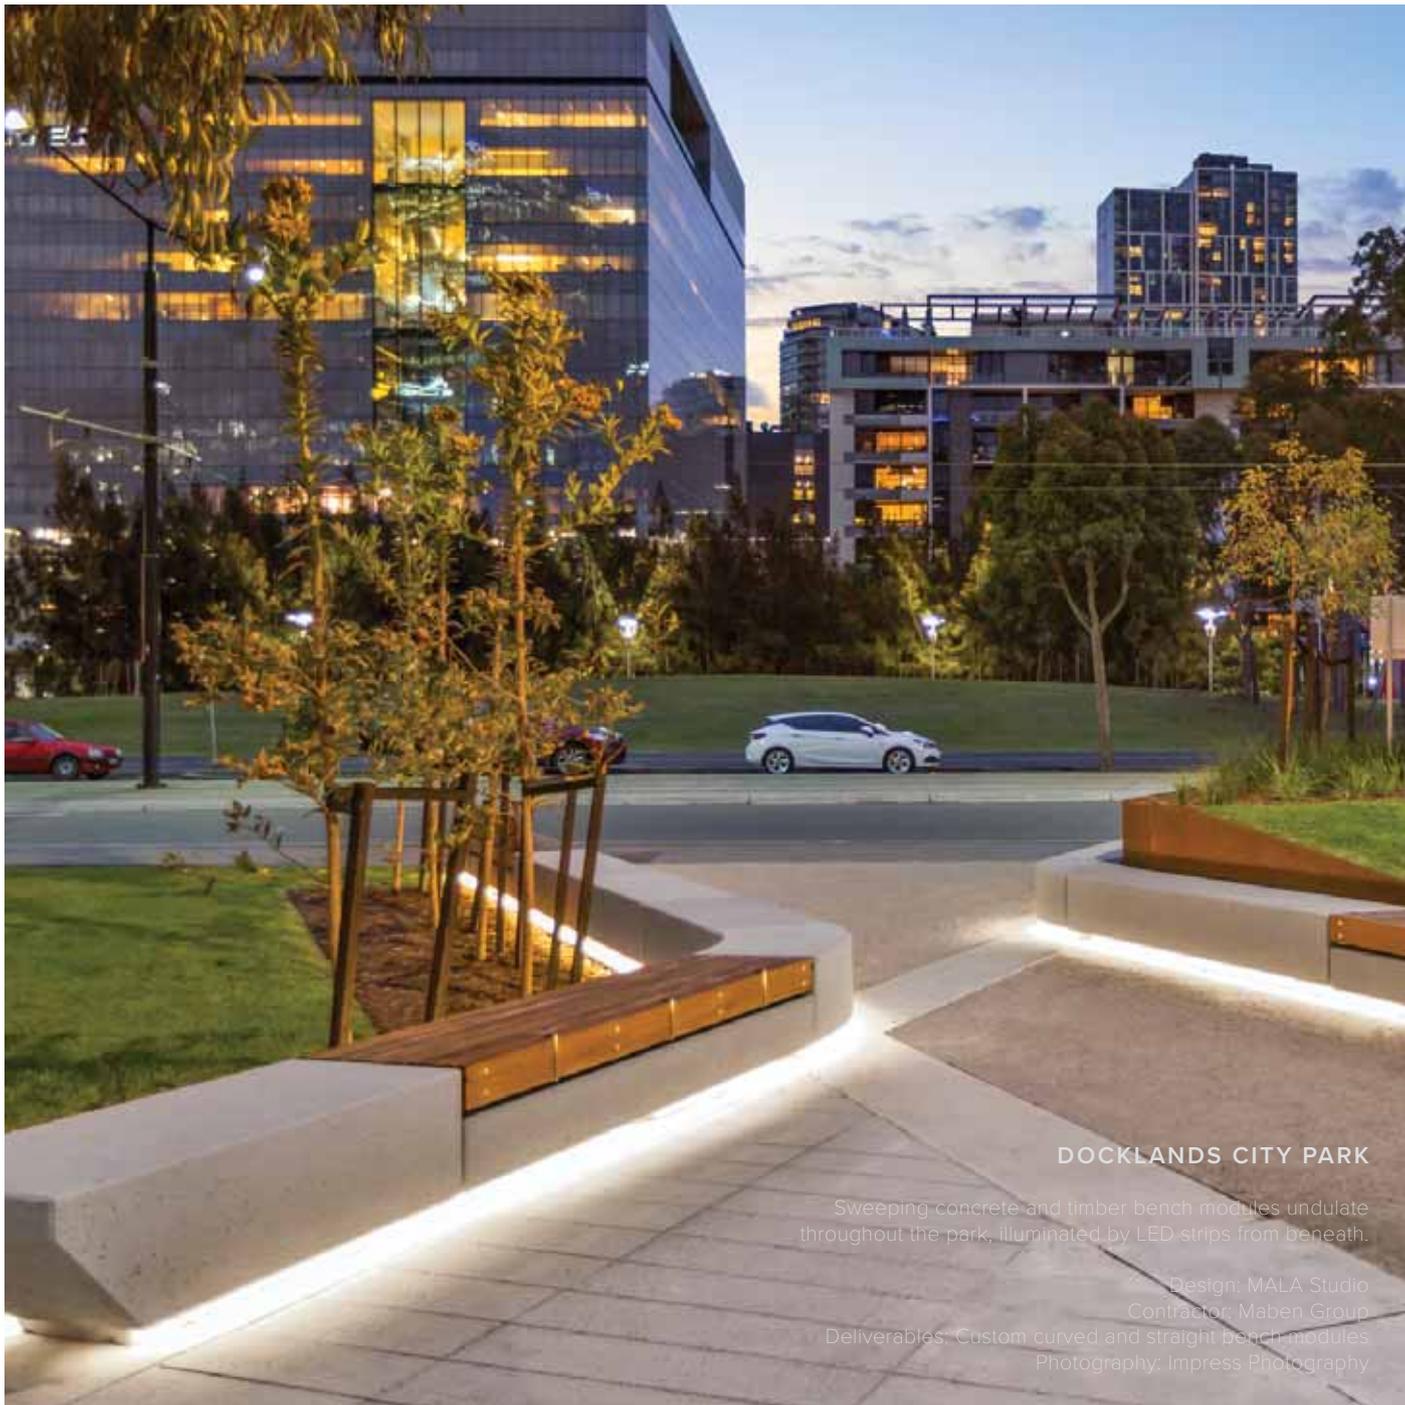

The extensive redevelopment of Box Hill Gardens has progressed via a staged masterplan by the City of Whitehorse.

Design: PLAYCE

Contractor: Planned Constructions

Deliverables: Block seat benches in charcoal

Photography: Impress Photography

DOCKLANDS CITY PARK

Sweeping concrete and timber bench modules undulate throughout the park, illuminated by LED strips from beneath.

Design: MALA Studio
Contractor: Maben Group
Deliverables: Custom curved and straight bench modules
Photography: Impress Photography

Floating concrete stair landings create an impressive entrance to this Mount Eliza home.
Design & Construct: Desired Effect Landscapes
Deliverables: Large-format stair panels

STEPS & RISERS

Stride between levels in style with architectural concrete stair units - the perfect combination of beauty, strength and durability.

Ashburton Residence, VIC
Design: PEOPL Group

Treads and Risers

Architectural concrete stair treads and risers are practical for use in both internal and external applications.

Choose from our standard 25 colours or request a custom mix. Available surface finishes are blasted, honed and polished finishes.

Bigge Park, Liverpool NSW
Design: Liverpool City Council

Curved Stair Units

Custom and curved steps and risers are available, though they generally incur additional lead times.

If required, stair nosing units can also be supplied by Anston in a variety of colours.

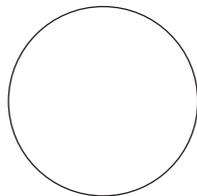

LANDSCAPE FEATURES

Delicate stencilled leaves add detail to the spheres dispersed throughout this cosy pocket park in Ferntree Gully.
Design: Knox City Council
Contractor: Open Playscapes
Deliverables: Atlas spheres with custom leaf prints

We seek to embellish the urban landscape with architectural pieces that are equally as attractive as they are functional.

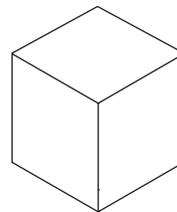

Spheres

- Ø 300
- Ø 400
- Ø 500
- Ø 600

Cubes

- L 500
- W 500
- H 500

Custom sizes are available upon request.

Landscape features can be personalised using stencils to create expressed silhouettes of letters, numbers or vector images on the surface of the product. Please contact your Anston representative for more information.

BESPOKE

The refurbished Acland St pedestrian plaza features a circular motif in its paving and furniture.

Design: BKK Architects & McGregor Coxall

Contractor: Melbourne Paving

Deliverables: Custom pentagonal and semi-circular paving modules, matching bollards and street furniture

Photography: Impress Photography

If you can draw it, we can make it. We specialise in the transition of ideas from paper to production.

Forge Apartments, South Yarra
Design: Mirvac

883 Collins Street, Docklands
Design: Koichi Takada Architects

Living Seawalls, Sydney Harbour
Design: Reef Design Lab, SIMS

Anston welcomes all requests for bespoke products - we pride ourselves on our ability to deliver concrete solutions for our customers' unique requirements.

Whether you need a custom colour, shape or material, we encourage you to get in touch with us early in the design process so we can help you workshop your idea. Our in-house design and fabrication teams are well-equipped to recommend the most effective methods to achieve your bespoke design.

Customisation - Paving

COLOUR / 'Here and Now' show garden, MIFGS 2014

Our design team has the flexibility to produce custom paving in a wide variety of traditional and non-traditional colours. This 2014 show garden featured a custom colour, Cuban Turquoise, created specifically for this project.

Design: Phillip Withers Landscape Design

Contractor: Semken Landscaping

Deliverables: Remi, Mimosa and Cuban Turquoise pavers

MATERIALITY / Acland Street Pedestrian Plaza, St Kilda VIC

Various stones and other materials such as coloured glass can be added to a concrete mix to produce an additional design detail. For example, the custom paving mix produced for the Acland Street project features a bluestone aggregate that matches the existing bluestone on site.

Design: BKK Architects & McGregor Coxall

Contractor: Melbourne Paving

Deliverables: Custom pentagonal and semi-circular pavers

SHAPE / Cluden Street residence, Brighton East VIC

The renovation of this back garden involved an retrofit of the paving and pool coping around the existing kidney-shaped pool. The pool curvature was measured on site, and custom coping units were then produced in the Anston factory to match the existing curve.

Design & Construct: Desired Effect

Deliverables: Custom pool coping and Ashlar paving in Atlas

Customisation - Landscape Features and Furniture

FORM / St Kilda Promenade Upgrade

Concrete is a versatile material and can produce all sorts of interesting curves and shapes. The geometric concrete benches installed at the St Kilda Foreshore use striking lines and bold edges to create a unique design.

Design & Construct: City of Port Phillip

Deliverables: Geometric concrete bench modules

MIX DESIGN / Box Hill Institute

Custom concrete mix designs provide a world of choice, as the base colour and aggregate material selections impact the appearance of the final product. Special outdoor benches at the Box Hill Institute were produced in a charcoal base colour, embedded with photovoltaic fragments that glow in the dark.

Contractor: Ace Contractors Group

Deliverables: Polished concrete bench seats

PERSONALISATION / Tarneit spheres

For an extra touch, details such as stencilled or imprinted images, letters or patterns can be added onto the surface of our products. For example, this detailed frog silhouette is easily visible against the exposed aggregate finish of the sphere.

Contractor: UDL Group

Deliverables: Frog-stencilled spheres in Flint and Steel (Flint pictured)
