A NEW LEVEL OF PROTECTION

Over 100 years of protection

With a proud heritage of innovation, Wattyl continues to deliver high performance coatings to protect and enhance every type of project.

Specifically designed for the trade, Wattyl's professional paint solutions deliver superior application, finish and value for money.

Introducing Wattyl I.D Advanced Range

Our new Wattyl I.D Advanced range, with Total Protection Technology™, delivers a new level of protection. This interior paint resists the growth of mould and fungus and offers advanced cleanability, washability and stain resistance. With an ultra-low VOC formula at less than 1g/L, Wattyl I.D Advanced far exceeds green-building requirements.
