situation: Refurbishment and extension of a large suburban gymnasium with significant acoustic concerns.

solution: Au.diPanel wall panels were combined with Atkar's Integrated Acoustic Backing to create a visually dynamic and functional result. Panels were finished in a durable polyurethane paint finish in three full-gloss colours, specified by the architect. Atkar's Au.diMount XJ1 concealed fixing system enabled efficient installation with no visible fixings. Individual panels can be easily removed for future maintenance.
