

WAFFLEBLADES
GEOMETRIC CEILINGS
Create striking geometric ceilings

Vivid, geometric grid effects • Economical • Customisable

SUPAWOOD WAFFLE BLADES

Striking geometric ceiling effects made easy!

SUPAWOOD WAFFLE BLADES is the new cost-effective ceiling system that allows you to easily design striking geometric effects.

WAFFLE BLADES' vertical blades can be criss-crossed and angled in a myriad of different ways. Leave them in an open grid for a more spacious interior feel. Alternatively, enclose the back with black acoustic felt or even solid or perforated panels.

Create dazzling patterns such as crosses, saltires, cubes and even complex multi-point starbursts.

Exciting and on-trend, WAFFLE BLADES opens an incredible array of design possibilities without compromising services, access or your budget.

WAFFLE BLADES

are ideal for:

Retail

Hospitality

Offices and Commercial

Hotels

WAFFLE BLADES technical details and design options

Standard Blade Sizes

- > 290 x 18
- > 190 x 18
- > 140 x 18
- > 90 x 18
- > Custom depths and widths available

Standard Grid Sizes

- > 1200
- > 900
- > 600
- > 450
- > 400
- > 300
- > Custom spacings available

Standard Configurations

- > Square
- > Rectangular
- > 60 degree diamond
- > 45 degree diamond
- > With or without diagonal inserts
- > Custom angles possible

Backing Options

- > Open
- > SUPABAB Black Acoustic Backing
- > Matching or contrasting panel backing
- > Mix it up
- > Access options available

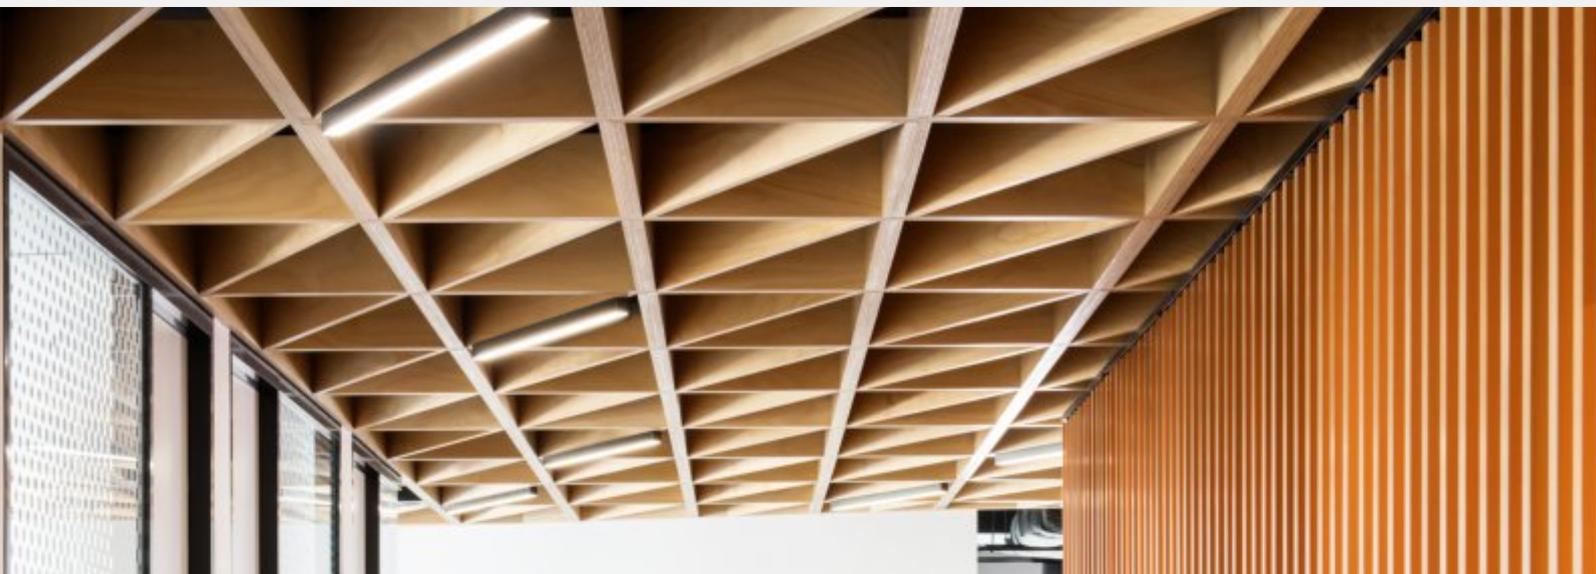

Fire Retardant Options

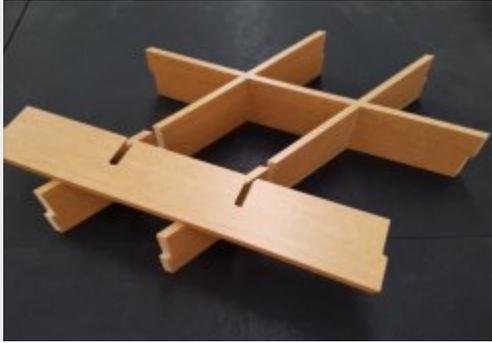

- > Achieve group 2 for certain configurations in SUPATEXTURE or SUPAFINISH

Square Waffle patterns (no backing)					Square Waffle with diagonals (no backing)						
		Blade Depth						Blade Depth			
		90 mm	140 mm	190 mm	290 mm			90 mm	140 mm	190 mm	290 mm
Grid Spacing	300	★				Grid Spacing	300				
	400	★					400				
	450		★				450	★			
	600		★	★			600	★	★		
	900			★	★		900		★	★	
	1200				★		1200			★	★

★	Recommended Configurations		Not Recommended
	Available in Fire Group 2 or 3		Available in Fire Group 3

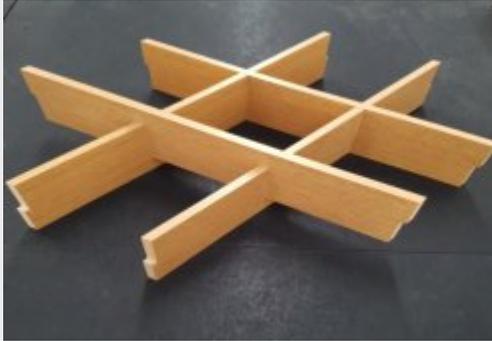

Note: as part of SUPAWOOD's process of ongoing improvement research is currently ongoing that will increase the range of configurations able to achieve Fire Group 2. Please contact the SUPAWOOD team if Fire Group 2 is required.

1

Interlocking blade install details

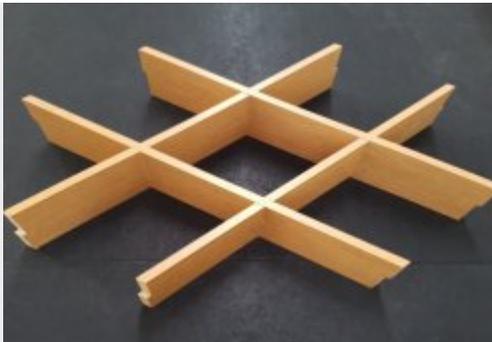

2

Assembly Concept

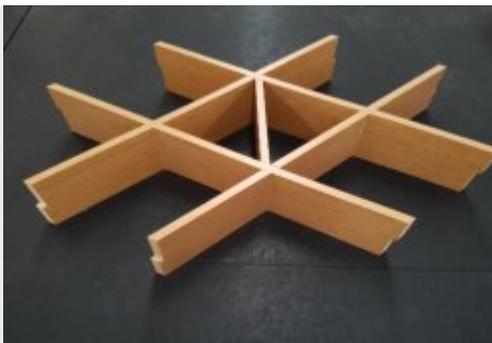

See sequence on left showing partly assembled to fully assembled.

Member lengths are typically 2400mm long.

This product can be assembled on the ground then lifted as a module or assembled piece by piece at final install height.

3

4

Fully assembled with diagonals.

5

Suspension clips to be inserted in groove on rear, then fixed with two screws through the side. Matching decal provided to cover screws.

Finishes and colours

Colours shown are a guide only and will vary from blade to blade.

SUPA VENEER (NTV) Natural Timber Veneer

SUPA VENEER WAFFLE BLADES
are only available in Fire Group 3

Hoop Pine CC
